Free up your time and focus. We take care of all management: from delinquent payments to the eviction process and legal procedures with the lawyer. This allows you to concentrate on generating more business and more transactions.

Real revenue growth. By eliminating distrust, transactions flow more quickly (more closings). This reduces the rate of deals falling through, turning your effort into real income.

Competitive Advantage and Simple Negotiation. A unique offering in your portfolio that positions you above the competition. The landlord feels protected and the tenant is supported, which results in fewer objections during negotiations.

Additional benefit. We also give you a commission for every rental closed with Grenty.

With Grenty, every deal becomes a real growth opportunity for everyone.

SOLIDITY

Grenty is not a new promise: it is a system proven in three markets. More than 50,000 contracts backed, over 650 million dollars protected, and more than 2 million dollars paid to landlords. These figures are not statistics: they represent thousands of owners who received their rent on time and in full, even when their tenants stopped paying.

That's why the world's leading Real Estate brands trust us:

With Grenty, your closings are faster and your commissions are more secure.

Make every negotiation a concrete growth opportunity.
