

Manage hundreds of properties without the risk of non-payment.

With Grenty, your portfolio grows with stable income and simpler operations.

OPPORTUNITY

Managing rental portfolios is a steady growth opportunity, not a source of risk. Grenty eliminates obstacles such as non-payments, costly legal proceedings, and the strain of resolving disputes, so your management can focus on profitability.

Grenty eliminates that complexity.

STABILITY

With Grenty, every contract in your portfolio is protected against non-payment. If the tenant defaults, the landlord continues to receive their rent and we assume full management of the eviction process and legal costs. You manage without friction and with the backing of a specialized partner.

We turn uncertainty into predictable income.

EFFICIENCY

Our model combines technology, standardized processes, and specialized legal support so that you can devote time to your business, focusing on managing your landlords and tenants, while we take care of the complex matters, including handling non-payments and evictions.

- 1 | A single price: 5% of the contract.**
- 2 | No limits on rent or property type.**
- 3 | 100% digital, fast, and bilingual process.**
- 4 | Legal management and eviction included.**
- 5 | Immediate activation upon signing the contract.**

A model designed to simplify your daily work and offer absolute predictability to your clients.

VENTAJAS

We know that in large Real Estate investment portfolios, secured payment generates better performance and a higher rate of return in the business. We give more value and return to your businesses.

Real scalability. Manage portfolios of 200, 300 or more properties without fear of delinquency.

Operational savings and delegation. We assume eviction and non-payment processes, avoiding costs and the strain on your team.

Landlords' trust. By guaranteeing stable income, you strengthen your relationship with your clients.

Digital management. Online, transparent, and bilingual processes that optimize time and resources.

SOLIDITY

Grenty is not a new promise: it is a system proven in three markets. More than 50,000 contracts backed, more than 650 million dollars protected, and more than 2 million dollars paid to landlords. These figures are not statistics: they represent thousands of owners who received their rent on time and in full, even when their tenants stopped paying.
